I, _____, parent/legal guardian for the above stated CFSA registrants understand Cheer squads are formed after football teams have been created. Once the football teams are in place, as many cheer squads as possible are created to provide a fun and full football/cheer experience for as many participants as possible. Squad formations are based on the below table that reflects the proper Division that a Cheerleader should be placed in if their birthday falls within the dates.

CFSA Cheerleading guarantees cheerleaders to be placed on the squad/team. There is no guarantee that assignment will be on their home school's team. Team assignment will be determined by the Association using the procedures set forth by each sport committee. Siblings will be placed together on a team, at the time of team formation. I further understand that I may not request a refund based on team assignment.
